

Educational Policy

The school motto aims to bring “Independence, friendship, and creation” to all students. The goal is to be challenged in learning through life’s obstacles by oneself and to open up one’s life for his/her own intentions to be strong.

In addition, we aim to bring up students rich in sentiment and capable of having a moral sense of community. Through this, we strive to have our students excel in their school, dormitory, family, and community lives.

~Education Targets~

【 i 】	To ensure students learn knowledge, skills, and manners necessary for independence; to learn to overcome difficulties and obstacles; and to nourish mental and physical development.
【 ii 】	To cultivate the abilities needed to be a member of society through instruction and overcoming obstacles step by step.
【 iii 】	To develop skills to make judgments as a member of society and become a person who can contribute to the community by working with students’ individualities and helping each student reach his/her goal.
