＜生徒の感想より＞

★I was so frustrated that we couldn't perform our play "High School Musical" on the second day. However, we did our best on the first day. I think that it was okay, because we practiced every day. This school festival was unusual because of COVID-19. We developed many strategies to avoid spreading the infection. This festival is one of my favorite memories!

★Our class really enjoyed the show. We felt a sense of accomplishment. We were supported by many people, and I felt grateful to them for giving us their full support. We will be happy if our play remains in their memories forever. We are glad that our performance went well.
